# 6300 VEHICULAR SWING GATE OPERATOR 

## Aesthetically pleasing original quiet design

- Electronic magnetic limits eliminate old style mechanical switches that can wear out, break or fail
- Automatic self-setting limits mean no limit switch adjustments - ever
- Safety - built-in mechanical and electronic reverse system
- Advanced microprocessor control board features programming switches to set the mode of operation required and has ports for DKS plug-in loop detectors to simplify wiring
- 5-year limited warranty

Shown on
Post Mount

Entrapment Prevention system reverses gate on contact

Smooth Operation no slamming when gate closes

Arm Joint Cover helps eliminate pinch points

Unique Design simplifies installation and provides easy access to all internal parts

## n！ 1 6300 VEHICULAR <br> SWING GATE OPERATOR

Pad mount adds $10.25^{\prime \prime}$（ 260 mm ）to height dimension．

＊Assumes gate to be in good condition and swinging in a level plane．
＊＊These operators use a step－down transformer to achieve 115 VAC operating voltage．

## TECHNICAL FEATURES

## MECHANICAL

Primary reduction is provided by a pulley／belt driving a worm gear reduction system
The 6300 rotates the gate $90^{\circ}$ in approximately 16－18 seconds

G90 galvanized steel frame to prevent rusting
Two－piece articulating arm mechanical slow－start／ slow－stop function
Operator is pad or post mounted－specify which
Keyed access is provided to release arm for manual gate operation in the event of a power outage

## GATE TRACKER ${ }^{\text {TM }}$

Reporting output provides operator data to a DKS 1833，1835， 1837 or 1838 access control system（requires 2358 expansion board）

## ELECTRICAL

Self－adjusting，no maintenance magnetic limits
Auto－close timer（ $1-23$ seconds）
Gate overlap feature for bi－parting（dual）gate operation

Simple connection for secondary operator in bi－parting gate systems
Tamper protect feature
Built－in On／Off switch
Built－in alarm reset switch
Selectable shadow／reverse loop function
Magnetic lock output
Ports for plug－in open and reverse loop detectors
（DKS plug－in detectors only）
Two 115 VAC convenience outlets for accessory transformers

## MISCELLANEOUS

Environmental： $10^{\circ} \mathrm{F}$ to $115^{\circ} \mathrm{F}\left(-12^{\circ} \mathrm{C}\right.$ to $\left.62^{\circ} \mathrm{C}\right)$
Thermostatically controlled heater kit recommended for colder environments
Shipping weight approximately $120-160 \mathrm{lb}(54-73 \mathrm{~kg}$ ） depending on model and options selected
Operator requires monitored Type B1 and／or Type B2 entrapment protection devices

Conforms To ANSI／CAN／UL 325：2017 Ed． 7 Certified To CSA C22．2 \＃247
